Program of Study		Neuropsychology is a systematic study of brain and behaviour. It has helped in better understanding of the brain functions, thanks to the advent of modern techniques in the field of cognitive neurosciences. There is a greater need for clinical psychologists to equip themselves with an understanding of the current developments in cognitive neurosciences and its application to clinical practice and research in Neuropsychology.
For more details, refer to the relevant department info on NIMHANS website or contact 080-26995180
